One of the most attractive things about the forthcoming Ubuntu 18.10 operating system, due for release later this fall on October 18, 2018, is its new look and feel, which is provided by the so-called Communitheme that was recently renamed as Yaru, a system-wide theme for Ubuntu Desktop.

As part of this community initiative, Ubuntu 18.10 will get a brand-new look and feel that will make the popular computer operating system more modern, more accessible, and more attractive. And, today we finally have a first look at the Yaru theme on the current Ubuntu 18.10 (Cosmic Cuttlefish) development release.
