?We are happy to announce the release of Calculate Linux 18!

In this latest version, Calculate Utilities were ported to Qt5, your network is managed in a different way, and binary packages get checked using their index signature.

Calculate Linux Desktop featuring KDE (CLD), Cinnamon (CLDC), Mate (CLDM), or Xfce (CLDX) environments, Calculate Linux Scratch (CLS), Calculate Directory Server (CDS) and Calculate Scratch Server (CSS) are available for download.
