- [French Krita book ? 2nd edition](#) [2]

Last month was released the 2nd edition of my book ?Dessin et peinture numérique avec Krita?. I just received a few copies, so now is time to write a little about it.

I wrote the first edition for Krita 2.9.11, almost three years ago. A lot of things have changed, so I updated this second edition for Krita version 4.1.1, and added a few notes about some new features.

- [Qt 5.12.0 Beta4 released](#) [3]

We have released Qt 5.12.0 Beta4 today. As earlier you can get it via online installer. Delta to beta3 attached.

- [Qt 5.12 Fast Approaching With The Final Beta Now Available](#) [4]

The Qt Company has announced the release of Qt 5.12 Beta 4 as the final beta release for this upcoming LTS tool-kit update.

Qt 5.12 Beta 4 is arriving just two days late, which still provides for hope of closely meeting the planned release target of Qt 5.12.0 as 29 November, but long story short this Qt tool-kit update should be shipping at the end of November or early December.
