Submitted by Roy Schestowitz on Friday 31st of May 2019 10:43:48 AM Filed under [KDE](#) [1] [Sci/Tech](#) [2]

Another minor release of the 3.2.X series is released, KStars v3.2.3 is out for Windows/Mac/Linux. This would probably be the last minor release of the 3.2.X series with 3.3.0 coming into development now.

This release contains a few minor bug fixes and some few convenient changes that were requested by our users.
