KDE.org Applications Site

By *Roy Schestowitz*

Created *13/08/2019 - 2:50pm*

Submitted by Roy Schestowitz on Tuesday 13th of August 2019 02:50:05 PM Filed under [KDE](#) [1]

I've updated the kde.org/applications site so KDE now has web pages and lists the applications we produce.

In the update this week it's gained Console apps and Addons.

Some exciting console apps we have include Clazy, kdesrc-build, KDebug Settings (a GUI app but has no menu entry) and KDialog (another GUI app but called from the command line).
