Submitted by Roy Schestowitz on Friday 13th of September 2019 06:38:24 PM Filed under [OSS](#) [1]

- [Open Source at IBC 2019](#) [2]

?

Showcasing two brand new Open Source software demonstrations featuring the Xilinx high-performance Zynq UltraScale+ MPSoC, and the Magic Leap One augmented reality headset.

- [Splitting Fun and Profit | User Error 74](#) [3]

It's another #AskError episode. The finances of social situations and FOSS projects, automated vehicles, and ways to cheer up.

- [Ubuntu Podcast from the UK LoCo: S12E23 ? Wing Commander](#) [4]

This week we've been playing Pillars of Eternity. We discuss boot speed improvements for Ubuntu 19.10, using LXD to map ports, NVIDIA Prime Renderer switching, changes in the Yaru theme and the Librem 5 shipping (perhaps). We also round up some events and some news from the tech world.

It's Season 12 Episode 23 of the Ubuntu Podcast! Alan Pope and Mark Johnson are connected and speaking to your brain.
