Dr Robbins has announced the new release of Funtoo Linux 1.4 on Sep 11, 2019.

This release is based on a 21 June 2019 snapshot of Gentoo Linux with significant updates to key parts of the system, such as compiler and OpenGL subsystem.

This is the fourth release of the Funtoo Linux 1.x series, which may be the last update of this release, as the developer said he would start developing 2.0 a month later.
