- [Top 20 Best NodeJS CMS Platforms To Use in 2019](#) [4]

NodeJs has been a popular web framework. It has been used to develop highly scalable web applications. A statistic shows that more than 1.5 Lakh websites are using NodeJs on a regular basis. And the number is increasing proportionally. When it comes to Content Management System (CMS), many NodeJs frameworks have been leading the way to a consistent digital content platform. For years now, NodeJs has been used to create some powerful CMS architectures. If you look closely, you will find some useful NodeJs CMS structures that you have been looking for your projects.

- [WordPress 5.3 Release Candidate](#) [5]

The first release candidate for WordPress 5.3 is now available!

This is an important milestone as we progress toward the WordPress 5.3 release date. ?Release

Candidate? means that the new version is ready for release, but with millions of users and thousands of plugins and themes, it's possible something was missed. WordPress 5.3 is currently scheduled to be released on November 12, 2019, but we need your help to get there?if you haven't tried 5.3 yet, now is the time!
