So we chose a different way ? the open source way ? and as a result, we've saved our technology budget more than \$1 million.

But the cost savings are just the beginning. More importantly, our decision to adopt 4,000 Linux-powered laptops empowered our students in remarkable ways.

Here at Penn Manor School District, we've gained much more by using Linux and other open source software. And by infusing open principles and practices into our learning environment alongside open technologies, we've cultivated a vibrant and inclusive learning community for all students.
