# ArcticFox 27.9.19 release

By *Roy Schestowitz*

Created 15/12/2019 - 8:26pm

Submitted by Roy Schestowitz on Sunday 15th of December 2019 08:26:25 PM Filed under [GNU](#) [1] [Web](#) [2]

Code has been fixed to support newer compilers. On Linux, currently, the highest supported compiler remains gcc 6.5, more recent versions do compile now with this release, but fail to link afterwards with errors on very standard symbols. Help appreciated! On NetBSD gcc 7 now works fine instead.
