Highlight of YaST Development Sprint 94 [2]

After some time of silent work (our previous blog post was published a month ago), the YaST Team is back with some news about the latest development sprint and some Hack Week experiments.

•

openSUSE Tumbleweed ? Review of the week 2020/10 [3]

Tumbleweed ? full steam ahead! There have been 6 snapshots in the last week, some with quite some changes. The snapshots were 0227, 0228, 0229, 0301, 0303 and 0304.

Reimagining SUSECON 2020 [4]

The health and wellbeing of our customers, partners, colleagues, and communities are of the utmost importance to SUSE. In light of the growing concern around COVID-19, and as a precautionary measure, we have decided to transform SUSECON 2020 into SUSECON Digital 2020, a virtual event.
