IEEE is the world's largest technical professional organization dedicated to advancing technology. The IEEE Standards Association (IEEE SA) is an organization within IEEE that develops global standards in a broad range of industries.

The IEEE Standards Association (SA) has come up with an open-source collaboration platform i.e. IEEE SA Open. It is technically a self-hosted GitLab instance combined with Mattermost (a slack alternative) and GitLab Pages. To describe it further, the official blog post mentioned...
