Oracle is pleased to announce the general availability of the Unbreakable Enterprise Kernel Release 6 for Oracle Linux.

The Unbreakable Enterprise Kernel (UEK) for Oracle Linux provides the latest open source innovations and business-
critical performance and security optimizations for cloud and on-premise deployment. It is the Linux kernel that powers Oracle Gen 2 Cloud and Oracle Engineered Systems such as Oracle Exadata Database Machine. Oracle Linux with UEK is available on the x86-64 and 64-bit Arm (aarch64) architectures.
