- **Reality 2.0 Episode 55: Radio Broadcasting** [3]
  
  Doc Searls and Petros Koutoupis talk to Dean Landsman and Paul Walker about radio broadcasting, including long distance coverage.

- **FreeTube: Privacy Focused YouTube Client - YouTube** [4]
  
  We all watch stuff on YouTube but a lot of people also care about their privacy sadly those don't mix very, however, FreeTube is one 3rd party youtube client that does a much better job at protecting you.

- **Security Growing Pains | Self-Hosted 37** [5]
  
  We discuss recent Home Assistant security news, and how we think the project could improve.

  Plus a bunch of follow up, emails, and more!
