The Puppy 2.15CE (Community Edition) is the result of collaboration of a team of Puppy enthusiasts. It is built upon version 2.14 but with many enhancements. In particular the guys have worked on an improved user-interface and nice out-of-the box first impression.

They have also developed some "SFS" files that add OpenOffice, web and graphics applications -- SFS files are "combo packs" of applications that can be installed and uninstalled with a few clicks.
