Another update is available: IPFire 2.25 - Core Update 156. As usual for this time of the year, it is a spring clear release that updates lots of software and brings a new exciting feature: Live Graphs.

Before we talk about what is new, I would like to as you for your support for our project. IPFire is a small team of people from a range of backgrounds sharing one goal: make the Internet a safer place for everyone. Like many of our open source friends, we’ve taken a hit this year and would like to ask for your continued support. Please follow the link below where your donation can help fund our continued development: [https://www.ipfire.org/donate](https://www.ipfire.org/donate).
