"I was very happy when I heard that I was approved as a member of The Document Foundation."

municipality of Olinda. I am one of the creators of the Municipal Public Archive of Olinda. I am also a human rights activist, especially for LGBT people. I am a proofreader and I also write for my blog.

In my work, in the city of Olinda, since 2001 I have been working with free office software, having started with OpenOffice.org, then with BrOffice and LibreOffice Writer, with which I created several models of documents to be used by the agencies that are part of the administrative structure of the Municipality of Olinda. These models remained on the City Hall's intranet until 2016, when in that year's elections another political party was elected, and that project was discontinued.

As a citizen, I am an activist in the LGBT movement, in which I have worked since 1980, when I helped found the Homosexual Action Group (GATHO), which was the first group in Pernambuco to fight in defense of citizenship for homosexual people. This group no longer exists, but I am a member of the LGBT Forum of Pernambuco, where I work as an independent activist, to which I was invited by my history as an activist for the LGBT cause in the state where I reside.

I also advertise LibreOffice among my friends, in the institutions where I work, and also in the WhatsApp and Telegram groups.

I like to photograph my city, my animals and nature.
