- [What do developers want and need from secure coding training?](#) [2]

Cybersecurity is increasingly becoming integrated into software development initiatives. As part of this, application security (AppSec) specialists often work closely with software development teams to improve security within the applications they create. However, there is still confusion about the role developers play in software security, and whether responsibility for it should rest solely on their shoulders.

- [Securing Access to Your MongoDB Database](#) [3]

In this article, we will go over some of the most common ways to securing your MongoDB cluster.

- [Zulip releases ?Teach a course? education product](#) [4]

Zulip for Education is a new open source team chat product used at university departments around the world, including MIT & University of California San Diego

- [U.S. Secretary of Commerce to Headline Open Skills Network?s Inaugural Skills Summit | News | bakersfield.com](#) [5]

This open source software toolkit will facilitate the creation and maintenance of open?skills libraries for use across sectors including education, the workforce, government, and the military. ? ?

- [Raspberry Pi OS now has SATA support built-in](#) [6]

But this month, Raspberry Pi OS finally has built-in support for almost all PCI Express SATA adapters. All you have to do is run `sudo apt upgrade` and you'll have it.

That means anyone with a Compute Module 4 can plug in a SATA card, and plug in hard drives or SSDs, and they should just work, assuming you have power to the drives.

- [Here are 5 insights you might have missed from Red Hat Summit 2021](#) [7] [Ed: "TheCUBE is a paid media partner for Red Hat Summit." In other words, IBM pays this 'publishers' to become a puff pieces apparatus]

It has been approximately two years since IBM finalized its acquisition of Red Hat Inc. for \$34 billion, and the Red Hat Summit in April offered an opportunity to assess the state of the open-source world and the key projects brought about by the marriage of two key enterprise computing powers.

The two-day virtual event was covered extensively by theCUBE, SiliconANGLE Media?s livestreaming studio, which conducted nearly 20 interviews with Red Hat and IBM executives, customers and partners as part of this year?s online gathering.
