Today we are looking at Linux Lite 5.6. It comes with Linux Kernel 5.4, based on Ubuntu 20.04, XFCE 4.14, and uses about 600MB of ram when idling.

In this video, we are looking at Linux Lite 5.6.

Today, I'm going to be playing one of my favorite free and open source games--0 A.D! This is a real time strategy game that is similar to Age of Empires. 0 A.D. can be found in almost every Linux distro's repositories.
Throughout my time at University I was almost constantly dealing with burnout and today I thought it would be a helpful experience to talk about how I personally dealt with burnout and the strategies I used to try and avoid it in the first place.
