SB Components is crowdfunding a $31-and-up LoRa HAT for Raspberry Pi? with a 5-Km range at 868MHz or 433MHz. There is also a $47 LoRa Expansion for Pico? board with a pre-soldered RPi Pico.

Raspberry Pi milliner SB Components, which is behind such RPi HATs as the PiFinger fingerprint sensor HAT, has won Kickstarter funding for a simple, low-cost LoRa communications HAT. The LoRa HAT for Raspberry Pi is still available in a super early bird special for 23 UK Pounds ($31), as well as an identical 30-Pound ($40) package discounted from the eventual 40-Pound retail price.
