Radxa has opened pre-orders for a Rock 5 Model B SBC with the octa-core Cortex-A76/-A55 Rockchip RK3588 with 4GB ($79) to 16GB ($139) RAM plus 2.5GbE, 4x USB, HDMI-in, 2x M.2, and triple displays with 2x HDMI 2.1 and Type-C/DP.

Radxa has unveiled the first board built around Rockchip’s powerful RK3588. The open-spec, Pico-ITX sized Rock 5 Model B (Rock 5B) SBC has opened for pre-orders, with $50 discounts available over the standard 4GB LPDDR4x ($129), 8GB ($149), and 16GB ($189) prices via a coupon program at Ameridroid and Allnet China, resulting in $79, $99, or $139 prices. Shipments are expected in Q2 2022.
