The Rockchip RK3588 hype continues with the Mixtile Blade 3, a new Pico-ITX board powered by the Cortex A76/A55 processor, coupled with up to 32GB RAM, up to 256GB storage, and designed for server applications with two 2.5GbE interfaces.

The single board computer also comes with HDMI 2.1 output, HDMI 2.0 input, USB 3.2 Gen 1 USB Type-C ports, a mini PCIe Gen 2 for expansion, and a PCIe Gen 3 x4 connector to connect two Mixtile Blade 3 boards together for high-performance computing.
