

# Using GNU/Linux Like It's Windows

By *Roy Schestowitz*

Created 28/05/2022 - 7:44pm

Submitted by Roy Schestowitz on Saturday 28th of May 2022 07:44:02 PM Filed under [GNU](#) [1] [Linux](#) [2] [Microsoft](#) [3]

- [Newest Version of Systemd Includes Experimental Feature for A/B-Style Updating](#) [4]

- [SystemD Is Being "Forced" Upon Us \(Myth Busted!\) - Invidious](#) [5]

I keep seeing the systemd haters spouting their nonsense on the Internet.

- [Setup Windows EXE on Linux - Invidious](#) [6]

Using Windows Setup EXEs can be difficult on Linux. This shows you how to do that with a variety of different Windows programs and how to interface with existing programs.

- [New malware for Windows Subsystem for Linux steals browser auth cookies](#) [7] [Ed: This is a Windows issue, not a "Linux" issue, but Microsoft-connected sites spin it like this]
