Niels Thykier: wrap-and-sort with experimental support for comments in devscripts/2.22.2

In the devscripts package currently in Debian testing (2.22.2), wrap-and-sort has opt-in support for preserving comments in deb822 control files such as debian/control and debian/tests/control. Currently, this is an opt-in feature to provide some exposure without breaking anything.

Support June 2022

Without monthly ad revenue and your support, we won’t be able to keep providing you with interesting and useful articles, applications, news or new releases of SparkyLinux.
