- MPROCS Offers The Best TMUX Feature Minus The Bloat - Invidious [3]
   Tmux is a great program if you need everything it does, but it seriously does a lot luckily there are programs like MPROCS which take small pieces of what Tmux offers without all of the stuff I don't need.

- 203: Linus Torvalds at Open Source Summit, Manjaro 21.3, AMD, KDE, Steam Summer Sale and more Linux news - This Week in Linux - TuxDigital [4]
   On this episode of This Week in Linux: Linus Torvalds Fireside Chat at Open Source Summit, Manjaro Linux 21.3.0, Steam Summer Sale, Help Shape the Future of KDE, Flameshot 12.0, Dooit Terminal Task / To-do Manager, FidelityFX Super Resolution (FSR) 2.0 Open Sourced by AMD, NoiseTorch 0.12.2, Zoom Now Supports Screensharing On Wayland, all that and much more on Your Weekly Source for Linux GNews!
The nonprofit Linux Foundation pays Linus Torvalds' salary and supports many other open source projects. But they also launched a new podcast series this week covering "The Untold Stories of Open Source."
