It's been a rough week for Marten Mickos, the chief executive of open source database maker MySQLAB.

First his most dreaded rival, Oracle), acquired a company that supplies a key piece of MySQL's software, a move that could make life difficult for Uppsala, Sweden-based MySQL, which has the most popular open source database.

If that wasn't bad enough, Mickos is being denounced as a traitor by noisy fanatics in the open source software community because last month he dared to make a deal with SCO Group, a company reviled by fans of Linux and other open source software.
