At the request of our readers and because today is Independence Day in the United States, we have decided to revive our old desktop customization tutorial for the Ubuntu OS and other major Linux distributions powered by the GNOME desktop environment.

This step-by-step tutorial was created for the Ubuntu 10.04 LTS (Lucid Lynx) operating system and it will teach you how to change the looks of your Linux desktop into an eye-candy, practical, simple and modern one. In other words, to pimp your desktop and change its looks:
