Gnome-Shell's UI revamp continues apace. With so many visual changes now landing MrMars decided to drop some screenshots off in the OMG! Inbox! along with a link to his Italian Ubuntu forum post touching on them.

The changes are very, very clear to see from the images below so lets have a quick rundown courtesy of MrMars?

New Shell

The 'Activites' overlay now looks more akin to Unity's Dash with categories a-top and icons en-masse below. A dock (or sorts) sits to the left-hand side with icons for open programs and bookmarked locations/items.
