Cherokee is a very fast, flexible and easy to configure Web Server. It supports the widespread technologies nowadays: FastCGI, SCGI, PHP, CGI, TLS and SSL encrypted connections, virtual hosts, authentication, on the fly encoding, load balancing, Apache compatible log files, and much more. This tutorial shows how you can [install Cherokee on an OpenSUSE 11.3 server](#) [3] with PHP5 support (through FastCGI) and MySQL support.
