Like almost any piece of software with rudimentary drawing capability, Gimp includes simple brushes like squares, circles, and fuzzy circles. While they get you by for many basic needs, there's a lot more you can do. Everything from flowers and vines to flames and bubbles can be created by brushes, and today we're going to show you some of the coolest ones out there.

1. . Vector Foliage

This lovely brush pack includes several plant-themed brushes capable of scaling to higher resolutions. Vines, flowers, trees, branches and more are included in silhouette style.
