While the world is out there looking in retrospective at the life and times of Steve Jobs, the question is also being asked will we ever see another Steve Jobs in our lifetime? or Who will the next Steve Jobs be?

With the IT industry still really in its infancy, the founders of the computer industry are all getting on, Bill Gates, Steve Wozniak, Larry Ellison and other such illuminati are our gods the founders. while they no longer have a day to day effect on the industry they founded directly there is no doubt they still hold sway and have valid opinion.
