# How to get APT to work through a proxy..

By *fielldyweb*

Created 26/11/2011 - 10:07pm

Submitted by fielldyweb on Saturday 26th of November 2011 10:07:28 PM Filed under [Howtos](#) [1]

APT is the core of package management on Debian based systems, its a powerful suite of tools for getting and managing packages onto the system.

As powerful as the Apt suite is, it has problems as I found out this week working through a proxy server. Something i've recently implemented.
