SalineOS is a desktop Linux distribution based on Debian and uses the Xfce desktop environment. The first version reviewed on this website was SalineOS 1.1, and that was back in February 2011. There has been several versions published since then? SalineOS 1.2, 1.3, 1.4 and 1.5.

This article is a review of the latest version, SalineOS 1.6, which was released on February 1 2011.
