Michael Meeks is a long-time OpenOffice, now Libre Office, contributor and employee of Novell, now Attachmate.

We caught up with him to get the inside perspective on the massive changes they, and desktop Linux as a whole, have gone through in the past few years.

Linux Format: Given everything that has happened with Attachmate buying Novell, who do you now work for?

Michael Meeks: Gosh, that's a really good question. The public-facing brand would be Suse. That's where I report in to. The company is managed as four different units.

LXF: Because they split out Suse and Novell?
