Last week, it was brought to our attention that our primary online donation form at donate.fsf.org was being blocked by corporate systems that use a Microsoft "network security" program. It seems Microsoft has labeled us as a "gambling site." As a result, many people were unable to make donations.

I have submitted a correction, asking that they remove the "Gambling" label and instead list us in their "Non-Profit/Advocacy/NGO" category.

We will avoid attributing this error to malice just yet, and wait for their correction. I will update this post if and when they respond to us.
