The Linux Mint team today announced the release of version 14, codenamed "Nadia." Today's release ships in MATE and Cinnamon desktop varieties for 32 and 64-bit architectures. "After 6 months of incremental development, Linux Mint 14 features an impressive list of improvements, increased stability and a refined desktop experience."

New Features this release:

1. MATE 1.4: "MATE 1.4 not only strengthens the quality and stability of the desktop but it goes beyond GNOME 2 by fixing bugs which were in GNOME 2 for years and by providing new features which were previously missing."
