I was having a conversation with my alter ego earlier on. No, not the one in a mirror. A real person living on the other side of the world to me. This person is as much a windows person as I am a Linux person.

This person lamented to me that with the release of w8 the Linux crowd have become extremely nasty and trollish in bringing the newest offering of microsoft down. They stated that Linux people never used to be like this and any sympathy he felt for them has now evaporated due to their latest actions.

Personally I had not noticed such abnormal behaviour.
