Still unsure whether Double Fine's Humble Bundle is worth the money and bandwidth?

With only six days left to claim your copies, we go hands-on with every game to help you decide?

To recap, there are currently three games available at any price:

Psychonauts

Costume Quest

Stacking

Eight prototype games from Double Fine were also added yesterday, but are only available for Windows.

Beating the average also nets you *Brütal Legend* and paying at or above \$35 also gets you backer access to *Broken Age*. If you're dying to throw money at your screen, paying at or above \$70 will also get you a t-shirt with worldwide shipping.
