This week TechNewsWorld takes a look at the top five must-have social networking tools for the Mozilla Firefox desktop environment. Social networks have taken mobile by storm, but the PC is still a player -- particularly based on its copious screen real estate.

Aggregation across social networks, one-click helpers, easy search, sharing, and the killer app that is image viewing in detail all present themselves well in this field.

About the Platform: Use the Search box in the Add-ons browser page, or browse for the link and choose it. Click on the add-on, let it install, and then restart Firefox if prompted.

Add-ons are sometimes called "Extensions" after they have been installed.
