After a losing a long bout with insomnia early Thursday morning, I started to looking at different Internet memes and matched them with ? how can I put this mildly? ? a current annoyance in the FOSS world known as the Indiegogo campaign for Ubuntu Edge.

You can all blame Mark Terranova, who on Wednesday posted this on Facebook:

Of course, that?s not really Michael Myers in the photo, but the guy?s whose face graces that photo does begin with an M. So it got me thinking: There are a lot of different, popular memes that would apply to the Ubuntu Edge situation.
