Best word processors for GNU/Linux

By *Roy Schestowitz*

Created *10/01/2014 - 12:23am*

Submitted by Roy Schestowitz on Friday 10th of January 2014 12:23:08 AM Filed under [Linux](#) [1]

Word processing is an important part of work ? and not just office work; everyone needs word processors at some point. This is the first article in the series ?Best Open Source Apps? and here I will talk about the most popular open source word processors for GNU/Linux: AbiWord, Calligra Words and LibreOffice Writer. I didn?t take OpenOffice Writer because it is not all that different from LibreOffice Writer.
