Buildroot project reports progress, releases update

By *Rianne Schestowitz*

Created *04/03/2014 - 12:53am*

Submitted by Rianne Schestowitz on Tuesday 4th of March 2014 12:53:12 AM Filed under [Software](#) [1]

According to project leader Peter Korsgaard's Buildroot 2014.02 announcement, this latest release includes new support for external packages; cleaned-up environment variable names for consistency; external toolchain updates (including uClibc, GCC on ARM, Linaro, and Sourcery Codebench); added internal toolchain support for Microblaze; Python and Luarocks package infrastructure support; 67 new packages; new defconfigs including for the Armadeus APF51 and Zedboard; and updates to a bunch of our existing configs.?
