Yes there was a security hole in Linux, but Red Hat already fixed it

By *Roy Schestowitz*

Created *05/03/2014 - 4:54pm*

Submitted by Roy Schestowitz on Wednesday 5th of March 2014 04:54:06 PM Filed under [GNU](#) [1] [Linux](#) [2] [Red Hat](#) [3] [Security](#) [4]

Originally reported by Ars Technica, the fix was available by the time the general public was made aware of it. It's actually fairly similar to a certain security hole that lived for a year and could have allowed for exploits to be used in the wild.
