

# today's howtos

By *Roy Schestowitz*

Created *07/04/2014 - 8:37am*

Submitted by Roy Schestowitz on Monday 7th of April 2014 08:37:51 AM Filed under [HowTos](#) [1]

- [How To Install JDiskReport 1.4.1 On Ubuntu, Linux Mint And Elementary OS](#) [2]

- [HowTo access metadata from RDO Havana Instance on Fedora 20](#) [3]

- [How to install Wifislax 4.8 on a hard disk drive](#) [4]

Wifislax is a Slackware-based LiveCD designed for wireless hacking and forensics. Though it is designed for use as a LiveCD, it is possible to install it to a hard disk drive (HDD) and run it just like a standard desktop distribution.

- [How to configure Varnish for WebSocket traffic](#) [5]

- [Improve Spam abuse protection in dovecot by restricting access to mail accounts by IP address \(e. g. with ISPConfig 3\)](#) [6]

- [How to set up HTTPS in Apache web Server on CentOS](#) [7]

-

[Data recovery from accidentally deleted files or crashed drives in Redhat, CentOS and Fedora Linux](#) [8]
