In a blog posting, Jim Wasko, Director of IBM's Linux Technology Center, said "that a Power Systems version of KVM, PowerKVM, will be available on IBM's next generation Power Systems servers tuned for Linux before the end of the quarter."

Porting KVM to Power has not been easy. IBM has been working hard on it since 2011. Sources say that PowerKVM will be available both from Red Hat and SUSE in their main enterprise Linux distributions, Red Hat Enterprise Linux (RHEL) and SUSE Linux Enterprise Server (SLES).
