# Tesla Model S owners hack their cars, find Ubuntu

By *Roy Schestowitz*

Created *13/04/2014 - 7:09am*

Submitted by Roy Schestowitz on Sunday 13th of April 2014 07:09:21 AM Filed under [Linux](#) [1] [Ubuntu](#) [2]

After wiring into the car's communications system, forum user "nlc" was able to find a number of ports and tap into the data flowing to the center console and navigation screens. Others soon joined in the fun and amongst the slightly esoteric bits of information the "hackers" eventually discovered was that the sub-system runs on a version of Ubuntu operating system, which is a Linux variant.
