We are happy to release another stable update for the 1.9.x series and Enlightenment 0.18.7.

EFL fixes:

build: Disallow non-working sdl + opengl ES combination (T856)

evas/proxy - redraw proxy source properly.

edge\_cc: Fix the crash when compiled wrong edc file containing empty part

evas - fix incorrect object reset.

ecore-evas - fix object cursor to not delete the same cursor when set

Evas cserve2: Fix crash in elm\_test GLView

ecore-con - deal with internal buffer growing over 2g in size

fix swap buffers with damage to not detect if ext str is not there
