4MLinux Media Edition, a special distribution with a wide set of multimedia tools and software, is now at version 8.2 Beta and comes with the latest tools and applications.

There are a lot flavors for 4MLinux, and the Media Edition is one of the most exciting and interesting, mostly because it packs a lot of very good applications dedicated to running all kinds of media files.

The 4MLinux distributions are known for their small size and it takes a lot of work to get all the pieces together in such a small package. A number of other apps can also be installed from the repositories
