- **Dota 2 for Linux Gets Fixes for Numerous Weapons and Spells** [2]

  Dota 2, Valve's own take on the famous Dota mod for Warcraft 3, has just received a fresh update for all platforms, bringing a long list of minor fixes.

- **Linux Version Of Hugely Customizable Game 'Vox' To Come Soon Developer Confirms** [3]

- **Full Bore Part 2 coming to PC and Linux this month** [4]

- **Linux Version Of Hugely Customizable Game 'Vox' To Come Soon Developer Confirms** [5]

  The developer behind the fun indie hit Vox a voxel based, action, adventure and creation game with a big focus on player created content has re-confirmed their plans for the Linux version. The good news is that the major content patch is now out, so once dust settles on that the Linux version will come!
