Via's *Viega* is an IP65-ruggedized, 10.1-inch tablet that runs Android 4.2 on a Via dual-core SoC, providing 9-hour battery life and optional 3G and GPS.

Via Technologies is getting into the rugged Android tablet market. The *Viega* tablet runs a fairly modern Android 4.2 build, and is designed for the showroom floor, warehouse, construction site, and other enterprise-level mobile computing environments, says Via.
